DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

- The primary reasons for allowance for claims 1-14 are the inclusion of the limitations of a printing apparatus, a control method, a control program, a computer readable medium, and a printing apparatus comprising a print data addition device configured to add print data corresponding to a defective printing element among a plurality of printing elements to print data corresponding to at least one adjacent normal printing element and a mask device configured to mask the print data corresponding to the defective printing element. It is these limitations, either alone or combined as claimed, that have not been taught, found, or suggested by prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- Bland et al. (6,278,469) teach a printmask having a pattern which enables the deposition of more ink from higher quality nozzles and less ink from lower quality nozzles.
- Kumar et al. (EP0863004) teach a printing method comprising the steps of identifying defective nozzles, selecting appropriate replacement nozzles, and modifying printmask to reflect the replacement nozzles.
